

PLEASE COMPLETE THIS FORM AND RETURN IT TO THE OFFICE. IF YOU PREFER TO CALL IN WITH THE INFORMATION, OR IF YOU HAVE ANY QUESTIONS, PLEASE CONTACT THE WATER PLANT AT 1-304-742-3585. THANK YOU.

EPA's new Lead and Copper Rule requires water systems to remove more lead service lines than the old rule. To meet the new requirements the water system must identify and have a record of all water lines in the system including the customer's private lines. The state of West Virginia has given the water system until October 16, 2024, to complete the inventory of all water lines. With your help, we hope to complete this requirement well before the deadline.

The questionnaire below will help us identify and record said data.

- 1. Physical Address? \_\_\_\_\_
- 2. What year was your home built? \_\_\_\_\_
- 3. Were the water lines in the home ever replaced? \_\_\_\_\_ If Yes, what year? \_\_\_\_\_
- 4. What type of water line is in the home? Pex/Plastic  -Copper  -Grey Metal  -Unknown

Note: If the pipe in your home is a grey metal we must determine if it's Galvanized steel or Lead.  
 If you scratch it with a screwdriver and it's hard, check here   
 If you scratch it with a screwdriver and it's soft and shiny when scratched, check here

- 5. What type of line is the Private Service Line (water line between the home and water meter)  
 Pex/Plastic  -Copper  -Grey Metal  -Unknown
- 6. Was the Private Service Line (water line between the home and water meter) ever replaced? \_\_\_\_\_  
 If Yes, what year? \_\_\_\_\_ and what type of pipe was used? Plastic  - Copper
